These drawings and specifications are provided as instruments of service. They have been prepared by the Designer as an independent contractor, not as an employee of the builder or owner. These drawings, details, designs, ideas, and specifications are the copyrighted work of the designer. They are not to be used on other projects, copied, constructed, or otherwise modified in this project without written consent and compensation to the Designer. The Designer will not be responsible for any construction means, methods, techniques or procedures, or for safety precautions and program in connection with the project. Designer assumes no liability for any structure built from these plans. Before construction, the owner, builder, or contractor must verify all dimensions, site conditions and building lines, and verify compliance with all applicable building codes for the site in which it is to be built. A qualified engineer must design the foundation to conform to the needs of the specific site, soil conditions, and geographic location in which it is to be built.
